TARINI AKULA

Junior Data Analyst | SQL | Power BI | Excel | Data Quality & Reporting

akulatarini@gmail.com | +1 (361) 265-8824 | linkedin.com/in/tarini-ak | github.com/tariniakula01-pixel | VA, USA

PROFESSIONAL SUMMARY

Junior Data Analyst with a Salesforce CRM and business analysis background, experienced across the full analytics workflow: SQL querying, data ingestion and cleaning, data profiling and validation, KPI development, and dashboard reporting in Power BI and Excel. Known for turning messy, real-world datasets into trustworthy, decision-ready insights — including a 10,000+ record migration at 99% accuracy and two end-to-end portfolio projects in education and healthcare analytics. Comfortable working independently in remote environments and translating stakeholder needs into clear data solutions.

TECHNICAL SKILLS

SQL & Querying: SQL (joins, aggregations, filtering, grouping, subqueries, window functions), MySQL, relational data modeling (tables, primary/foreign keys, relationships)

Data Wrangling & Quality: data profiling, data cleaning, data validation, data quality auditing, deduplication, matching rules, ETL / data pipeline concepts, data dictionaries, data documentation

Visualization & Reporting: Power BI, Microsoft Excel (advanced, PivotTables, lookups, dashboards), Salesforce reports & dashboards, KPI definition, trend analysis, leadership reporting

Analysis Methods: descriptive analytics, root-cause analysis, cohort/segment analysis, requirements analysis, user stories, acceptance criteria, traceability (RTM)

Tools & Practices: Git, GitHub, VS Code, JIRA, Confluence, Azure DevOps, Agile/Scrum, UAT coordination

Working Knowledge: Python (basic), JavaScript, HTML/CSS, REST APIs, JSON

Domain Data: K-12 education data, healthcare operations, HR/workforce analytics, CRM/Salesforce data; HIPAA-aware handling of sensitive data

ANALYTICS PORTFOLIO PROJECTS

K-12 Student Data Analytics — github.com/tariniakula01-pixel/k12-student-data-analytics

- Ingested and **profiled a multi-table student dataset** (students, attendance, assessments, discipline) with relational keys, mirroring real district data structures.
- Designed a defensible **data cleaning and transformation process** — separating mathematically-supportable corrections from ambiguous issues flagged for source-system follow-up — and kept a structured **data quality log and data dictionary** for full traceability.
- **Built PivotTable-driven Excel dashboards and a Power BI leadership dashboard** reporting on 117 students (91.8% average attendance, 78.1 average assessment score) with breakdowns by grade, program, and attendance band.

Healthcare Operations Analytics — github.com/tariniakula01-pixel/healthcare-operations-analytics

- **Wrote SQL queries by hand to answer 8 business questions** across related tables: specialty-level no-show rates, location cancellation trends, scheduling lead-time analysis, wait time vs. patient satisfaction, and provider workload distribution.
- Performed **root-cause analysis** on appointment data; produced **data-driven recommendations** for reducing missed appointments and improving scheduling efficiency.
- Defined **KPIs and built Power BI dashboards** translating operations data into clear visuals for leadership; documented business requirements, stakeholder analysis, user stories, and a requirements traceability matrix.

PROFESSIONAL EXPERIENCE

Accenture (Contract) | Apr 2026 – Present

Salesforce Administrator / Developer — State of Illinois, Healthcare | *Remote, USA*

- **Analyze and validate public health case data** across a statewide platform; **build dashboards tracking KPIs and trends** for program leadership, ensuring data accuracy across Dev, QA, UAT, and Production.

- Define **data mapping requirements** for real-time data exchange with external lab systems; perform **data quality checks** and document integration specifications.
- Translate stakeholder program needs into technical data solutions in a fully remote Agile environment.

Intellibee Inc (Contract) | Apr 2025 – Apr 2026

Salesforce Administrator / Developer | *Michigan, USA*

- Led **bulk data migration of 10,000+ records**: Excel-based **data profiling, cleansing, and deduplication** at **99% accuracy**; documented data quality findings and remediation steps.
- Designed **data-integrity rules** resolving duplicate records, missing values, and referential errors — cutting duplicate records by 40%.
- **Built HR analytics dashboards** improving management visibility by 25%; analyzed workflow data to identify bottlenecks, reducing turnaround time by 40%.

Perficient Corp (Contract) | Aug 2024 – Apr 2025

Salesforce Administrator | *NC, USA*

- **Built executive dashboards** tracking adoption and training completion for 500+ users; **defined KPIs and reporting requirements** supporting leadership decisions.

IBM | Apr 2021 – May 2022

Data & IT Analyst | *Hyderabad, India*

- Compiled **SQL-based reports and dashboards** supporting stakeholder decisions; conducted **root-cause analysis** of data issues, reducing system downtime by 15%.

SportsPlus Software Technologies Pvt Ltd | Jul 2020 – Apr 2021

IT Business Analyst | *Hyderabad, India*

- Coordinated **data migration and cleanup in Excel** improving data accuracy by 20%; authored **data validation plans and traceability matrices**; specified dashboard requirements tracking registrations and performance.

EDUCATION

M.S. Computer Science — Texas A&M University, Corpus Christi, TX | May 2024

B.Tech, Electronics & Communication Engineering — Malla Reddy College of Engineering and Technology, India | Jul 2020

CERTIFICATIONS

Salesforce Certified Administrator (ADM-201) | Salesforce Certified Platform Developer I (PD1) | Copado Certified Fundamentals — CRM data-platform credentials supporting analytics on Salesforce data
